

Realize your very best self

AT THE LIVE YOUNG SKY LAKES WEIGHT MANAGEMENT PROGRAM

BEFORE: 310 lbs

AFTER: 226 lbs

Gene Scott: "A little less than a year ago, I was 310 pounds, and my wife and I were in the point of our relationship where we wanted to start a family, but I wanted to get healthier so I could be around for my family. I decided to join the Live Young Weight Management Program to get extra support, and once I did that, and I got the right tools, the weight seemed to fly right off. This wasn't a fad diet where you lose weight for 6 months and gain it all back. I now have the tools to continue this for the rest of my life and not have to struggle with it. These are lifetime changes that I can pass down to my kids, my cousins. I don't know how to describe how different my life would be without this Program."
